AUSTRALIA

Positive tone set at first sale of 2014/15 season

At the first sale of the 2014/15 season, Australian Wool Exchange's (AWEX) Eastern Market Indicator (EMI) rose by 2 cents on the previous week's sale (June 26). The EMI closed at 1,018 Australian cents per kilo clean on Thursday July 3. In US dollar terms, the EMI fell by 6 cents to 955 US cents per kilo.

The closing value for the EMI on Thursday June 26 was rebased at 1,016 Australian cents per kilo clean (from 1,022 Australian cents). Every three to four years AWEX reviews the weighting of the micron categories used to calculate the EMI in order to better reflect the proportion of fibre in the clip. As a result a heavier weighting is expected towards fine wool.

The auction centre market indicators changed as follows: Northern - 1,028 Australian cents (from 1,035 Australian cents), Southern - 1,009 Australian cents (from 1,014 Australian cents) and Western -1,061 Australian cents (from 1,056 Australian cents).

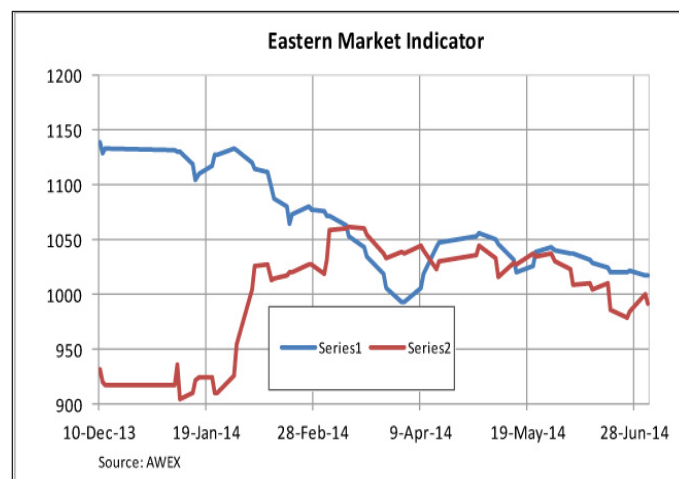

A total of 38,030 bales achieved a clearance of 92.8%. The market picked up for the first sale of the new season, with the medium to broader micron fleece wools attracting the most attention. Mid-micron types closed the day 10 cents dearer on Wednesday (July 2) in Fremantle. Prices for 23 micron fleece wools increased by 10 cents in Melbourne on Wednesday, with 18.5 micron varieties seeing gains of 10 cents in Sydney.

On Thursday in the southern region, broader types continued to make progress, with 22-23 micron fleece wools closing 10 cents dearer. The northern market indicator was dragged down by soft skirting demand, where most microns conceded ground – some styles closing up to 20 cents cheaper. Crossbreds of 27-32 microns finished the week up 5 cents in Sydney, tending in sellers' favour in Melbourne.

Locks drifted by up to 10 cents in Sydney on

Wednesday, with washing locks closing in sellers' favour on Thursday. Crutchings and locks finished the week in Melbourne up to 5 cents dearer.

The last sale before the three week recess (July 14-28) is expected to offer 41,508 bales.

United States

US wool trading on a clean basis was moderate against good demand, with 321,450 lbs (145,810kgs) of confirmed sales this week. Greasy wool sales were also moderate, with no confirmed sales this week.
